## Equipment & Description:

KEVLACAT Australia has been constructing the range of **KEVLACAT powered catamarans** for the last 20 years from its factory at Kawana on Queensland's Sunshine Coast. In that time KEVLACAT has earned a reputation for building the safest and most seaworthy power boats money can buy. With the reputation, it's not surprising that Coast Guards and Volunteer Marine Rescue organizations around the country choose KEVLACAT.

If you are looking for a built-in recreational business with a repeat customer base, this hugely spacious, wide beamed, fully equipped, fast and sea-worthy Kevlakat 3500 is just the ticket. **Few boats can compare with its economy cruising, maneuverability, and performance even in the worst of conditions.**

Feast your eyes on this great fishing, diving or private ferrying boat! Kevla Cats have been acclaimed for some time for the economical, comfortable cruising they offer. On top of this, they offer a massive fishing area, twin helm and a comfortable living area. To put it simply, this boat is everything you need and put your mettle to the test! The design draws inspiration from the trawlers of yester-year with attractive lines and a presence which dwarfs many other boats. But, despite it's likeness to the reliable cruisers, it has not been limited like their speed; **This boat gets up and goes with the best of them at an impressive 35 knots, cruising at 18kts, durable Kevlar hull construction, easy to maintain and stable performance in rough seas that a catamaran can deliver.**

**Power:** Twin 225 Honda 4-stroke (2005), Engine hours (500 hrs),

**Covers:** Full fly bridge Bimini top & covers, Rear cockpit bimini top, Windshield Cover

**Deck:** Anchor locker, Boarding ladder through swim platform, Side boarding gate, Cockpit shower, Electric windlass anchor,

**Electronics & Navigation:** Full instrumentation per engine, GPS Garmin GPSMap 521s, VHF radio, Compass, Stereo, Depth sounder, Speedometer

**Electrical:** 12 volt system, Bilge Pump, Battery Charger, DC panel board

**Salon & Helms:** Cold water pressure, One electric toilet, Comfortable settee and dinette configuration, forward berth can be converted to sleeping area, Twin helm stations.

#### **Hull:**

Catamaran design featuring twin sponsons for superior stability and performance over more traditional monohull boats. Laid up using mat, cloth and polyester resins reinforced with Kevlar the same high strength material used in numerous applications from racing tires to sails to body armor. This construction makes her an extremely rugged and durable vessel designed for one primary mission – charter fishing, diving and ferrying.

#### **Others:**

- Life vests Adult size
- Fenders
- Fire extinguisher
- Many other fishing accessories
