General Description

DESCRIPTION: Fast 58ft Charter Catamaran

CONSTRUCTION: Aluminium DATE LAUNCHED: 1994 LENGTH: 16.7m (58ft) BEAM: 6.5m (21.3ft) DRAFT: 0.6m (2ft)

General description:

This vessel is one of two available in an established charter operation. It can be purchased alone or with the other boat, a 72ft Catamaran. As a business operation it offers the advantages to maximise tax incentives such as all depreciation and operating costs. There are forward bookings set up through a supporting marketing network. This is truly an opportunity to purchase a well established vessel with lifestyle and financial return. It is a very popular charter boat providing Patrons an expansive layout and comfortable cruising. It is approved for 67 passengers plus crew.

The vessel is currently based in central Auckland and berthed in a high profile location within the downtown Viaduct Marina. From here it is ideally positioned for the beautiful islands of the Hauraki Gulf. The current owner is only selling due to pressure of other business commitments.

Specification:

The boat was built in WA Australia by Sabre Marine who specialise in the construction of aluminium catamarans. The current owner purchased it from Tauranga in 2012 and moved it to Whangarei for a complete overhaul.

Builder - Sabre Marine, WA **Designer** - Marc Ellis

Displacement - 25t
