

Chey Lee 61
Power Boat For Sale

Dracomaris is a 1983 Cheoy Lee 61 and is a true long range motor yacht built under Lloyd's supervision, she is powered by twin GM 8V71'S depowered @ 250 Hp engines giving her a great life expectancy and economical fuel consumption of only 40 liters per hour at approximately 9 knots inclusive of her generators either the 17 Kva or 7.5Kva, with a full speed of around 14 knots, the vessel is stabilized by Niad hydraulic automatic systems along with both bow and stern thrusters making docking easy, The decks are covered with 1" solid teak, and for while at anchor she has deployable flopper-stoppers for use in exposed anchorages, she has recently been upgraded with a full solar power inverter system also coupled to the generators for auto transfer if the battery voltage drops, the interior is in excellent shape full of light timber and modern colors, the whole vessel is air-conditioned with a huge amount of refrigeration and freezer space, the electronic package is typical of a much larger vessel with twin plotters and most systems duplicated, she is fitted with a television communications dome providing Philippine and international channels, a full sound system is available on board with a complete galley, Dracomaris has completed many long voyages on her own keel with most recently completing Brisbane Australia – Subic Bay with no issue where she is now for sale. (Delivery to foreign ports option)
