

Seahorse Diesel Duck Sedans (SD462) for Sale

Description:

Steel Diesel Duck Sedans are built for coastal cruising and include important safety features not found on most competitor's yachts:

- Strong steel fireproof hulls;
- Extensive double bottoms;
- Many interior watertight compartments with sea doors;
- Toroidal isolation transformers instead of welding types;
- Built in folding boarding ladders port and stbd;
- Strong commercial windows, ports and hatches
- Extra height safety rails, chest high at pilothouse door;
- Optional Sail Assistance, easy to use sailing rigs for extended range, stabilization and "come home" capabilities;
- Single large fuel fill with manifold for all fwd tanks;
- Several independent bilge pump systems;
- Steps, not a ladder, to the swim/dive/boarding platform which has safety rails and a swim boarding ladder;
- All LED lighting, interior and exterior,
- 80" headroom and bed lengths in all yachts, 38 feet to 78 feet;
- Flexible motor mounts with "U" joint Carden shaft and thrust bearing;
- Welds X-Rayed and all tanks pressure tested;
- Spray foam insulation in the hull, minimum 1 1/4" thick;
- Powerful LED "Crab Pot/Debris" light on bow;
- Plus many other exclusive features.
