

43' CATAMARAN FOR SALE - \$220,000 USD

This vessel is the boat builder's own personal vessel, and comfortable long term cruising pleasure was the key consideration he had in mind when he designed and built her.

She is bright, well lit and airy throughout. First impressions will confirm she has been lovingly built and maintained to an extraordinary standard with long term live aboard cruising in mind.

She is an incredibly sea worthy boat, having circumnavigated once and proven herself in all seasons and weather conditions on six oceans. She is extremely strong as she was built to over-specifications.

Her deck gear, sail rig and technical fit out speak of her master's long and varied sailing experience and she has carried him safely on many long blue water passages.

She has been set up for a single-handed sailor, making her an excellent option for couples or small crewed vessels. Yet her airy, spacious interior would make her ideal for a young family or group of friends (3 double cabins affording sleep for 6 people.)

This cat has been professionally completed in 2006 with new diesels, refurbished exterior and interior, refurbished rig, new electronics and much more. The professionally built hull is very strong yet but only weighs 6 tons. Her engine compartments are easily accessible and maintained to an extremely high standard.

She is easy to sail with excellent visibility, hydraulic steering and autopilot. She benefits from recent in-depth maintenance including complete refurbishment of the hydraulic system featuring new rams and steering pump, completed in 2016.
